First Regiment School of Instruction-A Hailding Boom, etc. Special Dispatch to the Intelligences

Mondangows, W. Va., March 29 .- Col. R. E. Fast, who commands the First regiment of the National Guard, will hold a military echool of instruction in May, lasting one week. All of the commissioned officers of the companies composing the regiment, the regimental officers of the First regiment and some of the brigate staff are expected to be present. The instruction will consist of lectures each day on the military science which will promote the efficiency of the state troops. Besides being instructive Colonel Fast has arranged to make the officers have a good time in a social way. Morgantown is having a building boom. Among the handsome building neating completion are the Old Fellows' building, the Second National missioned officers of the companies com-Nile Territory Would Be Regarded

lows' building, the Second National Bank building, the Union Improve-ment Company's offices, the Baptist church and a great many private resi-dences. Brock, Rood & Wade have be-gun work on a handsome three-story structure for offices and general busi-

atracture for offices and general business rooms.

Telephone communication will soon be established between here and the outside world. The work of putting in the Morgantown exchange began this week and a large force will be put to work on the line towards Pittsburgh, and it will be completed by June 1. The local exchange will give the town connection with Fairmout, Grafton and Clarksburg.

Dr. Rhinehart's residence in Cassville, in the county, was destroyed by fire a few days ago with its contents. Several other residences adjoining it caught and for a while it looked as if the town might be consumed.

Among the deaths in the county this week were those of Zadoc T. McBre, in Clinton district, aged eighty-two, and

Silas S. Powell near Smithtown, aged flity-five years.

Then she dashed madly back into the burning building to save her, danghter.

A Bridgeport, Ohio, Aspublican on the Situation in Pease Township.

Sin:-I desire to say a few words in as brief a manner as I can relative to the political situation in Pease township. It is a well known fact that the Republicans of Pease township put a full ticket in the field for the spring election. Our Democratic friends used every honorable means known to them to have a full Democratic ticket, but in that they failed well because they like to have a full Democratic ticket, but in that they failed, not because they did not have good material, but because (to use a common expression as used by some of the leading Democrate) it is no use, but in lieu of a Democratic ticket a few sore-headed Republicans (at least they call themselves Republicans) got their (sore) heads, together and made an independent ticket, expecting the people of Pease township to support and elect them. What for? Because they say that they are entitled to the support of the people.

know whether it would be decided in their favor or not), the independent ticket was made, and on that ticket we find the name of George Pitner (the same George) for township trustee, and the name of J. E. Clark (the same Clark) for justice of the peace. Now it is for the voters to say whether or not that ticket will be elected. They also claimed that the proceedings of or not that the selected. They also claimed that the proceedings at the primary were illegal. If that claim had been proven before the election board, I do not think the board would have decided that the primary was all

In conclusion I will say, that they are using overy effort to defeat the Republi-can ticket, but they will find when the votes are counted out next Monday night, that the fate of him who bolts the primary will have been demonstrated by an overwhelming majority for the regular Republican ticket, for the handwriting is on the wall, and there is no mistake as to its meaning.

"But something beside our own efforts is necessary, and that is the co-operation of the French government and the French people."

The correspondent spoke to member: The correspondent spoke to members of all parties in the lobby after Sir Edward Groy's speech and found it to be practically the consensus of opinion that, though this difficulty will probably be adjusted it must bring much nearer the conflict with France which the most acute observers of foreign affairs now feel to be nevitable.

It was suggested by some that Lord Rosebery, the prime minister, relies on the influence of Russia being cast against France should she adopt an aggressive line, but others believe that the effect of the new balance of powe in Europe would be that Russia and Germany would stand by while Great Britain and France fought an exhaustive war.
